TT-63-20442

Trans. of Soc[ietà] Ital[iana di] Biol[ogia]..
Sperimentale. Bol[lettino] 1950, v. 26, p. 269-271.
(Abstract available)

DESCRIPTORS: *Electrolytes, Solutions, *Electrical
conductance, *Ultrasonic radiation, Acetic acids,
Potassium compounds, Chlorides,

It was found that ultrasonic irradiation produces an in-
crease of conductivity of the electrolytic solutions which
varies according to the concentration. Whereas for the
KCl solutions the increase becomes greater with de-
creasing concentration, the acetic acid solutions show
the opposite behavior. (Author)
